

Arena starter  
classic digital solutions

**REXTON** 

# Arena

*Reliable, comfortable and affordable, Arena hearing instruments are a popular, effective and economic hearing solution. These instruments can fit a wide variety of hearing loss.*

## Digital With a Traditional Twist

Arena offers distinct entry-level hearing solutions with personalized features and affordable price points. Arena's fully digital platform provides flexibility not found with other conventional analog products. Your hearing health professional can adjust your Arena hearing instrument to reproduce sound in a manner specific to your listening needs.

## Enhancement Options

Arena is the only entry-level digital family in its class that offers enhancement options to help increase overall circuit performance.

- **Low Battery Beep**  
*The hearing aid emits a series of beeps when the battery is low, ensuring you have time to replace the battery before the aid goes dead.*
- **Microphone Noise Reduction**  
*Arena offers reduced noise in the microphone input for increased listening comfort.*
- **Other features**  
*The telecoil provides increased speech understanding during phone calls (dependant on model). Arena BTE hearing instruments are compatible with FM and MLX systems.*

## Model Selections

Arena products are available in a variety of models. Talk to your hearing health professional for more information on which Arena hearing instrument is right for you!
